Docks and lifts must be removed from Public Reserve lands by July 10 annually.

If a dock is not installed for a period of one year or more, and application is received for the vacated boat/dock slip space, the current permit holder is granted right of first refusal to continue use of the space.

When property changes hands, the dock permit does not transfer with the land sale, but consideration will be given to the new owner.

If the original installation is altered in any way (size, location, shape) a revised application form must be submitted for review and approval.

Docks sites are for private use by residents only of the Resort Village of Thode.
